

Practical Aspects of Flow Cytometry

Front Matter

Pages 1-1

PDF

Introduction and History of Flow Cytometry

Pranab Dey

Pages 3-8

Basic Principles and Instrumentation of Flow Cytometry

Pranab Dey

Pages 9-21

Sample Preparation and Data Acquisition in Flow Cytometry

Pranab Dey

Pages 23-34

Display and Interpretation of Data in Flow Cytometry

Pranab Dey

Pages 35-46

Quality Control in Flow Cytometry

Pranab Dey

Pages 47-55

Fluorescent Probes and Different Useful Markers for Flow Cytometry

Pranab Dey

Pages 57-73

Nuclei Acid Dye and DNA Content Measurement in Flow Cytometry

Pranab Dey

Pages 75-82

Diagnostic Applications of Flow Cytometry in Cytology

Front Matter

Pages 83-83

PDF

Classification of Lymphoma, Different Markers and Approach

Pranab Dey

Pages 85-95

Markers for Immunophenotyping in Flow Cytometry

Pranab Dey

Pages 97-107

Detection of Lymphoma: Clonality Demonstration by Flow Cytometry

Pranab Dey

Pages 109-115

Flow Cytometry of B-Non Hodgkin Lymphoma

Pranab Dey

Pages 117-142

Flow Cytometry of Mature and Immature T-Cell Lymphoma

Pranab Dey

Pages 143-152

Flow Cytometry of Body Cavity Fluid

Pranab Dey

Pages 153-168

Flow Cytometry of Solid Tumours

Pranab Dey

Pages 169-178

Self-Assessment Test in Flow Cytometry

Pranab Dey

Pages 179-194
