Senior Editor: Felicity Foster
Production Controller: Wendy Lawson

Designed and produced for Anness Publishing Ltd by Ivy Contract
Project Editors: Jonathan Bantable, Kim Davies,
Judith Chamberlain-Webber
Editorial Assistant: Georgia Anson-Bradshaw
Art Director: Lisa McCormick
Designer: JC Lanaway

ETHICAL TRADING POLICY

At Anness Publishing we believe that business should be conducted in an ethical and ecologically sustainable way, with respect for the environment and a proper regard to the replacement of the natural resources we employ.

As a publisher, we use a lot of wood pulp in high-quality paper for printing, and that wood commonly comes from spruce trees. We are therefore currently growing more than 750,000 trees in three Scottish forest plantations: Berrymoss (130 hectares/320 acres), West Tounhill (125 hectares/305 acres) and Deveron Forest (75 hectares/185 acres). The forests we manage contain more than 3.5 times the number of trees employed each year in making paper for the books we manufacture.

Because of this ongoing ecological investment programme, you, as our customer, can have the pleasure and reassurance of knowing that a tree is being cultivated on your behalf to naturally replace the materials used to make the book you are holding.

Our forestry programme is run in accordance with the UK Woodland Assurance Scheme (UKWAS) and will be certified by the internationally recognized Forest Stewardship Council (FSC). The FSC is a non-government organization dedicated to promoting responsible management of the world's forests. Certification ensures forests are managed in an environmentally sustainable and socially responsible way. For further information about this scheme, go to www.annexpublishing.com/trees
